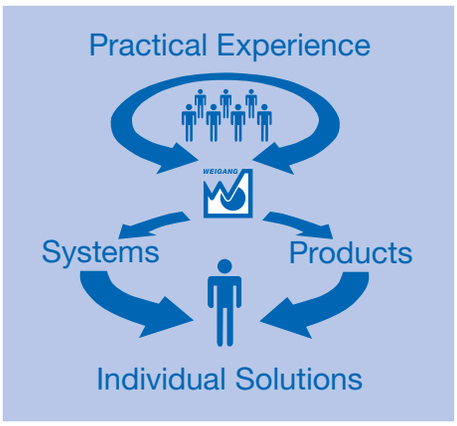
WEIGANG

Motivation Through Organisation

Visualisation

WEIGANG – Competent Solutions

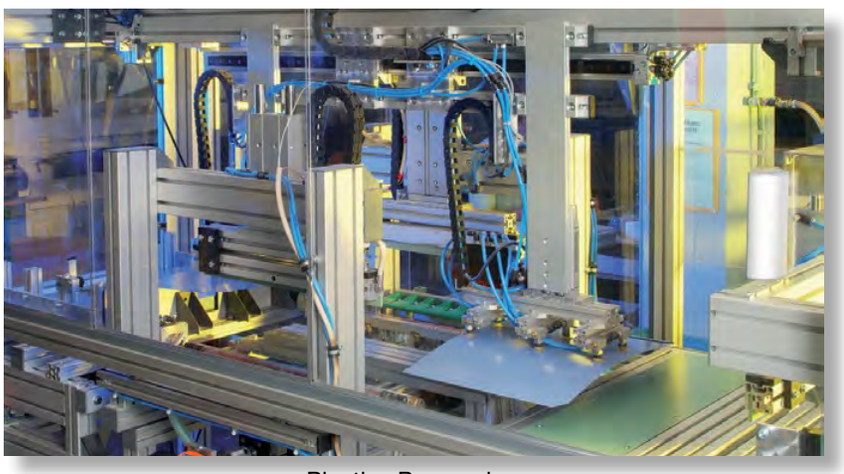


For ***WEIGANG***, visualisation – displaying information, goals, processes and results in a simple and understandable way – has always been an important issue.

Through decades of experience in manufacturing and sales of organisational solutions, a wide range of products and applications was established, which offers our customers and interested parties a large spectrum of individual solutions.

Our **regional sales partners** are availabe to assist you with their professional competence in the following fields:

- visual management
- KANBAN, CIP, TQM, TPM, etc.
- planning
- controlling
- scheduling
- customized solutions



Plastics Processing

Tool Shop

WEIGANG...

Since 1945 ***WEIGANG*** has been producing classic organisational means.

The production facilities comprise metal, wood, plastics and paper processing.

Our top priorities **are high-quality products and satisfied customers.**

We combine production know-how with the experience from the most various manufacturing sectors and thus offer a wide range of products which meets all of our customers' expectations. However, it is important that every single member of our staff has the same idea of quality and reliability.

Therefore, we have been focusing on complying with the DIN ISO 9001 standard and were certified already in May 1997.

... where ideas turn into products

Cascading Display, TeamBoard 65
One compartment – a thousand possibilities…

FiFo 67
FiFo Board, FiFo Sequencer, FiFo Box

Organisational Solutions 71
Datoclip+, Stagger Display IV, Wall Pocket

Visualisation – Practical Examples

Usable on both sides and mobile: Visualisation with the ”SilverLine“ Board on Mobile Frame

For an innovative team culture: The KAIZEN Message Board helps with the exchange of information

Visualisation – Practical Examples

Clear structure for critical work awareness: KAIZEN Teamboard in use at the workplace

Columns, rows, cells, colours: This is how facts can be structured with the help of a board

Visualisation – Practical Examples

Three information levels: Pylon Board with Basic Boards moving one behind the other

Supports on-site coordination work: write-on and dry-erase Shop Floor Board

Display Pockets ensure an orderly appearance and a clear structure

Visualisation – Practical Examples

More information on a small space – Basic or Double-sided Boards with Swivel Frame, for example with wall attachment

The Shop Floor Board is flexible to the max – moveable on castors, rotatable from portrait to landscape format and with quickly exchangeable backgrounds

Visualisation – Practical Examples

Information and communication are key elements in Shop Floor Management. In order to update oneself quickly – regarding production plans, key figures, current problems and improvements – a visual on-site support facilitates a lot.

Segment 4
Segment 4
-Center
WEIGANG.
Shopfloor Info-Center

Visualisation – Practical Examples

A clear arrangement needs space: target-group-oriented communication in the company

Facts right where they are needed: presentation of key figures in the production

Clearly instructed: Protected and securely attached postings in rough industrial application

Interface between planners, logistics specialists and mechanics – here in the shipbuilding industry: Visualisation Board with integrated touch screen

Visualisation – Practical Examples

In-house information and communication: TeamBoard as interface and basis for discussions

Central information point: Interlinked visualisation boards become a space-structuring element

Visualisation – Practical Examples

The Folding Board – protecting important information against unauthorized glances or displaying a lot of facts on a small surface

The Basic Board magnetically attracts attention. With a “clicking sound”, your statements are visualised on the ferromagnetic white surface.

Spotlight

The Basic Board magnetically attracts attention. With a “clicking sound“, your statements are visualised on the ferromagnetic white surface.

Basic Board with ferromagnetic white surface,
incl. installation material for wall mounting, with aluminium frame in white (RAL 9002), red (RAL 3003), blue (RAL 5002) or anodized with corners in black. Please find modules for labelling and equipping the basic board on the following pages. The dimensions listed below are standard dimensions, but we can also produce the boards to your own dimensions.

Dimensions:

Width	x	Height	Item No. white	Item No. red	Item No. blue	Item No. anodized
600 mm	x	900 mm	89 33 210	89 33 220	89 33 230	89 33 240
2000 mm	x	900 mm	89 33 510	89 33 520	89 33 530	89 33 540
700 mm	x	1000 mm	89 34 210	89 34 220	89 34 230	89 34 240

2000 mm	x	1200 mm	89 35 610	89 35 620	89 35 630	89 35 640

You require an individual grid? Talk to us!

Simple Elegance

With its silver-coloured surface, its anodized aluminium frame and its diagonally cut corners, this visualisation board fits into any modern office.

VisuBoard
is a magnetic write-on and dry-erase board. Upon request, we print your logo on the board, so that it blends in perfectly into your Corporate Identity.

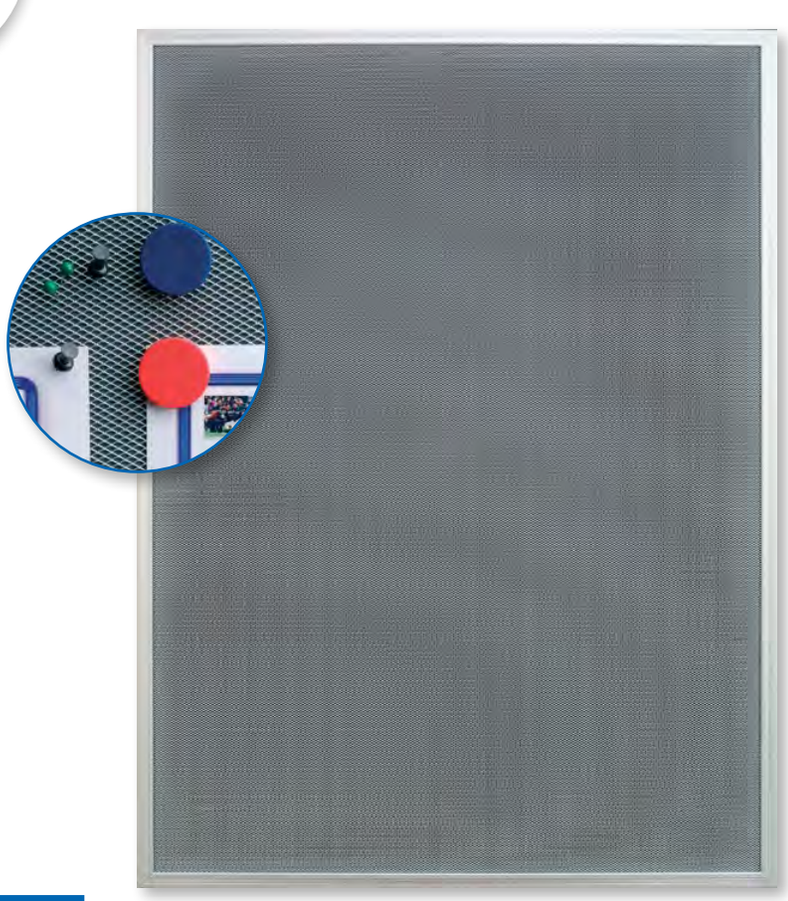
Dimensions:

W = 1000 mm, H = 1200 mm	Item No. 89 31 669
W = 1500 mm, H = 1200 mm	Item No. 89 31 670
W = 2000 mm, H = 1200 mm	Item No. 89 31 671

We will also be glad to produce the SilverLine VisuBoard as per your specified dimensions. We are looking forward to your enquiry.

Accessories for SilverLine Boards as for example Display Pockets and Magnetic Frames: see page 31 ff.

Magnets for VisuBoard and PinMag
Colour **silver**, Ø = 30 mm, H = 8 mm
10 pieces = 1 PK
Item No. 89 50 978



PinMag

is the multifunction talent among the visualisation boards. Its surface is made of anthracite-colored felt and covered with a metal stretch grid, so that you can attach your notices with pins or magnets as desired. The stylish frame of anodized aluminium provides your documents with a noble environment.

Dimensions:
W = 600 mm, H = 900 mm
Item No. 89 31 672
W = 900 mm, H = 1200 mm
Item No. 89 31 673

Marker Pins
blue, 8 x 15 mm
20 pieces per pack
Item No. 89 50 979

Free-standing Frames and Storage Boards

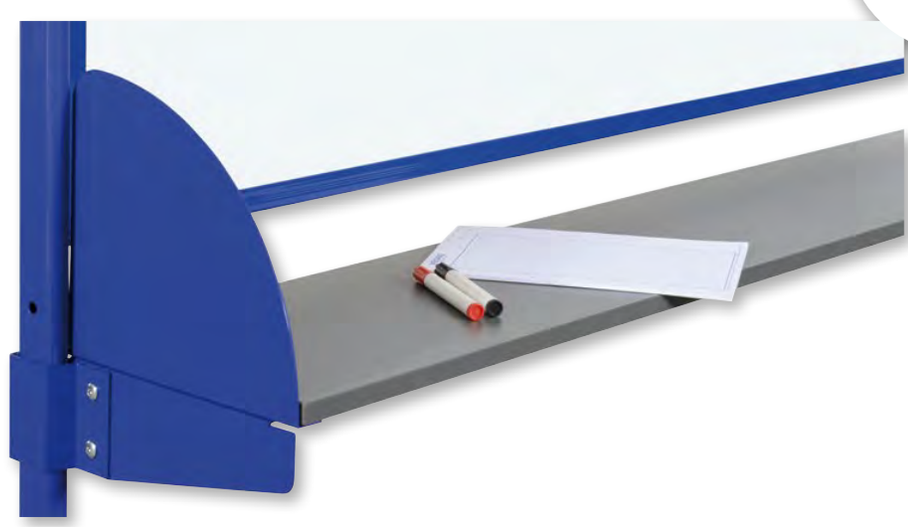
Free-standing Frame of Oval Tubes
With cross strut, in the colours white (RAL 9002), red (RAL 3003), blue (RAL 5002), grey aluminium (RAL 9007)

Board Width:	Item No. white	Item No. red	Item No. blue	Item No. grey alu
600 mm	89 57 061	89 57 062	89 57 063	89 57 064
700 mm	89 57 071	89 57 072	89 57 073	89 57 074
900 mm	89 57 091	89 57 092	89 57 093	89 57 094
1000 mm	89 57 101	89 57 102	89 57 103	89 57 104
1200 mm	89 57 121	89 57 122	89 57 123	89 57 124
1500 mm	89 57 151	89 57 152	89 57 153	89 57 154
2000 mm	89 57 201	89 57 202	89 57 203	89 57 204
2250 mm	89 57 221	89 57 222	89 57 223	89 57 224
2500 mm	89 57 251	89 57 252	89 57 253	89 57 254

Castors for Free-standing Frame
For free-standing frames in blue, castors will be supplied in blue/black, for all others frame colours in black/black
QU = 4 pieces,
2 of which are lockable, H = 85 mm
Item No. 78 58 101

Freehand

Folders, papers, pens, magnets – the sturdy Storage Board ensures that when working at the Visualisation or Information Board, you have everything at hand (but not in your hand).



Storage Tray
To be mounted at the free-standing frame. Freely height-adjustable, depth approx. 300 mm. Storage Board graphite-coloured, with lateral bookends and stop bracket on the back.

Please note that the maximum weight load of the Storage Board is only max. 50 kg.

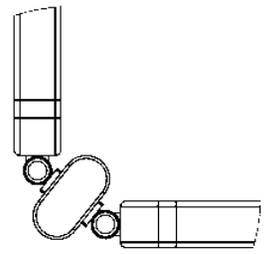
Please enquire for Storage Boards with interlinked vertical tubes.

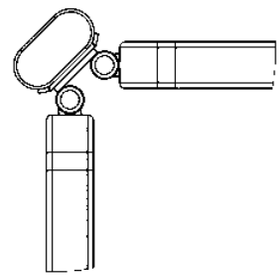
Board Width:	Item No. white	Item No. red	Item No. blue	Item No. grey alu
600 mm	89 58 610	89 58 620	89 58 630	89 58 640
700 mm	89 58 611	89 58 621	89 58 631	89 58 641
900 mm	89 58 612	89 58 622	89 58 632	89 58 642
1000 mm	89 58 613	89 58 623	89 58 633	89 58 643
1200 mm	89 58 614	89 58 624	89 58 634	89 58 644
1500 mm	89 58 615	89 58 625	89 58 635	89 58 645
2000 mm	89 58 616	89 58 626	89 58 636	89 58 646

Our recommendation:
If the Storage Board is not mounted at the height of the free-standing frame, please use the stop bracket as fall protection for the rear edge of the Storage Board.

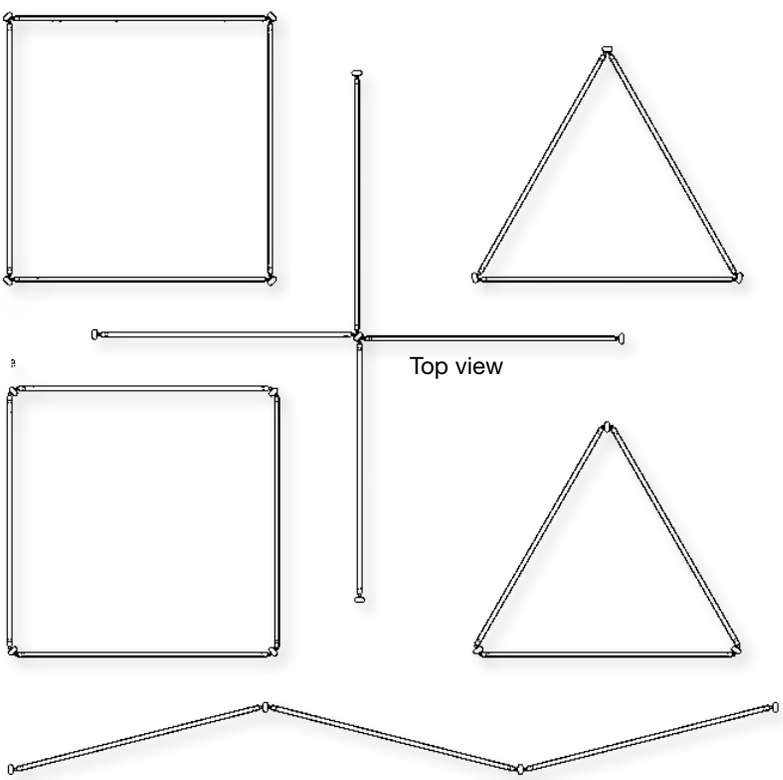
Examples of Interlinked Boards

Assembly variant with Single Fittings Set





Assembly variant with Double Fittings Set



Top view

Presentation Board and Presentation Case

Needlework

Traditional attachment in modern design. The presentation boards can be used on both sides. They are held by an aluminium frame and vertical tubes.

Presentation Board
Frame made of anodized aluminium with black corners; vertical tubes in grey aluminium (RAL 9007).
Supplied with 4 castors, 2 lockable.
Board dimensions: W = 1200 mm, H = 1500 mm
Surface design: Cardboard, grey
Item No. 89 31 727

Further felt surfaces
in the colours light blue, grey, orange and black are available for you.

Presentation Case
nice design, lockable, made of aluminium. The presentation accessories are clearly and orderly arranged inside the case.
W = 480 mm. H = 370 mm, D = 160 mm
Weight including accessories approx. 6 kg

Contents:
- removable carrier belt
- 200 presentation cards, 100 mm in dia.*
- 150 presentation cards, 140 mm in dia.*
- 150 presentation cards, 190 mm in dia.*
- 200 presentation cards, oval, 190 mm x 110 mm*
- 500 presentation cards, 200 mm x 100 mm*
  * assorted in blue, green, yellow, red, orange, white
- 6 black pens
- 4 red pens
- 4 Jumbo markers (1 each red, yellow, green, blue)
- 1 extendable pointer
- 1 pair of paper scissors, 1 cutter
- 1 adhesive tape with dispenser
- 1 roll of crepe tape, 50 m
- 2 glue sticks
- 300 pins
- 1 pin cushion
  Item No. 89 59 601

Working while standing

Round Table

Whether for a stand-up gathering or for a chat during the coffee break – this non-tilting table helps you to be communicative.

Standing Table with table top in graphite finish

Table top diameter = 600 mm,
Table height = 1100 mm,
star-shaped base with floor slide.
Vertical tube in the following colours:
white (RAL 9002), red (RAL 3003),
blue (RAL 5002) or grey alu (RAL 9007)

Colour:

white:	Item No. 89 50 451
red:	Item No. 89 50 452
blue:	Item No. 89 50 453
grey alu:	Item No. 89 50 977

MobilO
mobile high-desk for flexible and ergonomic working

approx. 700 mm wide x 700 mm deep x 1100 mm high
4 columns and 2 foot stabilizers of oval tube
4 wheels two of which are lockable
side panels made of perforated plate, metal parts made of grey aluminium (RAL 9007),
writing plate W x D = 700 mm x 450 mm, tiltable and vertically adjustable (1050 mm to 1250 mm), body with slide-out key-board shelf and stationary drawer, height adjustable shelf.
Body to be closed by a lockable sliding roller shutter.

Body in maple finish
Item No. 89 31 832

Body in graphite finish
Item No. 89 31 833

Pullout for suspension pockets (no fig.)
incl. additional bar
Item No. 89 51 138

Perforated base extension plate
approx. 600 mm wide x 130 mm deep x 330 mm high, made in grey aluminium (RAL 9007)
Item No. 89 31 837

It works!

This writing pad for wall or magnetic attachment allows you to jot down your notes quickly. Just fold down its writing surface – and it will be ready to hold your paper and pen with its clips.

Writing Pad for paper
size A 4 portrait, Dimensions:
W = 250 mm, H = 420 mm, D = 25/320 mm
inlc. paper clip and pen clip

Wall attachment
incl. mounting material
Item No. 89 50 706

Magnetic attachment
with paper clip and pen clip, firm hold by 3 strong magnets
Item No. 89 50 707

Flipchart Typ "Flexichart"
Moveable H-shaped base structure in grey aluminium (RAL 9007), with 4 castors, 2 lockable.
Height adjustment by pneumatic spring in
- portrait format from 800 mm to 1100 mm
- landscape format from 645 mm to 945 mm

Backside of flipchart white and magnetic, write-on surface (whiteboard pens) format W x H = 785 x 1078 mm.
90° rotary fittings with locking mechanism for use in portrait or landscape format. Incl. 2 pieces magnetic Flipchart Holders and 20 sheets Flipchart Paper
Item No. 84 43 543

Flipchart Paper, blank,
punched top and bottom,
20 sheets each, W = 700 mm,
H = 1000 mm
Item No. 84 58 005

Flipchart Paper, squared, 25 x 25 mm
punched top and bottom,
20 sheets each, W = 675 mm,
H = 1000 mm
Item No. 84 58 006

For on-site explanations:

The magnetic Flipchart Holder turns machine housings and metal doors to a temporary presentation surface.

Magnetic Flipchart Holder
Made of anodized aluminium, for universal use of Flipchart pads at all ferrous surfaces with adjustable suspension for standard commercial flipchart paper formats.
Colour: anodized alum., Dimensions: 716 mm, H = 52 mm
Item No. 89 50 650

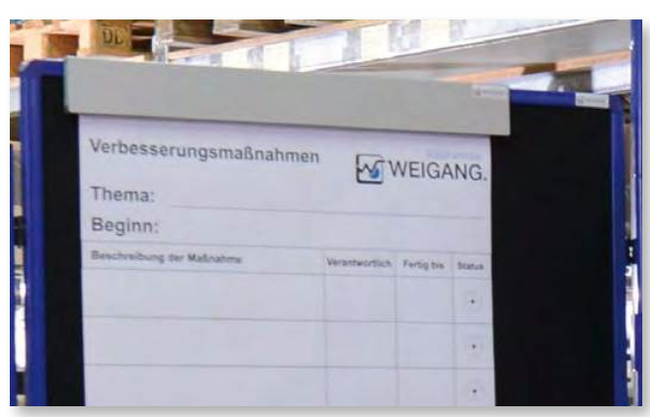
Flipchart Paper Clamp
to hook over the frame profile of the visualisation board, adjustable suspension for standard commercial flipchart paper formats. Colour: white aluminium (RAL 9006), Dimensions: 722 mm, H = 80 mm
Item No. 84 43 550

Pen Holder, magnetic
for four Felt-tip Pens
Item No. 84 50 728

Felt-tip Pen
for Flipchart Paper
4 colours, assorted
(red, green, blue, black)
Item No. 84 52 154

Flipchart Paper
Punched at top, 20 sheets each, blank,
W = 700 mm, H = 1000 mm
Item No. 84 58 003

Flipchart Paper
Punched at top, 20 sheets, squared, 25 x 25 mm
W = 675 mm, H = 1000 mm
Item No. 84 58 004



Cabinet Cupboard

When the cabinet cupboard spreads its wings, your information obtains expanse and depth. Big presentation surfaces and an inner space open up, where for example a monitor or samples find their place.

Lockable Cabinet Cupboard
Outer and inner wings usable as writing boards or to be equipped with magnetic visualisation tools
W = 1900 mm / 2 x 950 mm, H = 1250 mm, D = 250 mm
Item No. 89 31 490

We will be glad to offer you a suitable monitor. We are looking forward to your enquiry.

Protected Area

Display Cabinets provide your notices with an elegant and neat frame and, at the same time, protect them against dirt and unauthorised access.

Display Cabinet with Wooden Frame, grey white (RAL 9002)
white magnetic back panel, smoothy operating acrylic sliding doors with locking device for:

Possible posting variants:
2 x 3 sheets, size A4 vertical or
2 x 4 sheets, size A4 horizontal
W = 650 mm, H = 950 mm, D = 100 mm
Item No. 89 31 401

4 x 3 sheets, size A4 vertical or
3 x 4 sheets, size A4 horizontal
W = 1000 mm, H = 950 mm, D = 100 mm
Item No. 89 31 402

5 x 3 sheets, size A4 vertical or
4 x 4 sheets, size A4 horizontal
W = 1250 mm, H = 950 mm, D = 100 mm
Item No. 89 31 403

Colours for edges:

- blue grey (RAL 5014)
- blue (RAL 5002)
- green (RAL 6028)
- red (RAL 3000)
- yellow (RAL 1003)

Special sizes upon request: max. up to 2000 mm wide, 1200 mm high and 50 mm to 200 mm deep.

Display Cabinets can also be supplied with a pinboard, blackboard, cork or silver-coloured surface upon request.

More Information on Little Space

Protecting important information against unauthorized glances or placing many facts on a small surface, these are the arguments for the use of a Folding Board.

Folding Board
With a middle panel usable on the front side only. The wings are Double-sided Boards. The fittings for folding the wings in and out are self-locking.
Frame and corner profiles in white, red, blue or black.
The Folding Board is both suitable for wall mounting and mounting on a free-standing frame.

W = 1500 mm / 2 x 750 mm, H = 1200 mm
Item No. 89 33 010 white Item No. 89 33 020 red
Item No. 89 33 030 blue Item No. 89 33 040 anodized

W = 2500 mm / 2 x 1250 mm, H = 1200 mm
Item No. 89 33 110 white Item No. 89 33 120 red
Item No. 89 33 130 blue Item No. 89 33 140 anodized

Free-standing Frame, L-shaped, for board width 1500 mm
Item No. 89 33 015 white Item No. 89 33 025 red
Item No. 89 33 035 blue Item No. 89 33 045 grey aluminium

Free-standing Frame, L-shaped, for board width 2500 mm
Item No. 89 33 115 white Item No. 89 33 125 red
Item No. 89 33 135 blue Item No. 89 33 145 grey aluminium

Please note:
It is not possible to use a second Folding Board at the backside of the free-standing frame.

Accessories:
Safety Bracket, yellow, with integrated utensil tray
Item No. 89 58 539

Swivel Frame
to include up to 5 Basic or Double-sided Boards
Colour: grey aluminium RAL 9007
For board height:
H = 900 mm Item No. 89 51 793
H = 1200 mm Item No. 89 51 794

Fixing Bracket
for attaching Basic or Double-sided Board into the Swivel Frame
Item No. 89 51 795

Delivery without Basic or Double-sided Board. Please choose boards on pages 13 or 14.

Please note:
The maximum reach (width) of the board may not exceed 1200 mm. When ordering the Basic Boards, please indicate on your purchase order that these are to be mounted into Swivel Frames.

Swivel Frame with Wall Attachment
Construction to include up to 5 Basic or Double-sided Boards.

The distance between the board frames amounts to 10 mm, the equipping depth per board is 5 mm. This means that the maximum distance from board surface to board surface amounts to 20 mm.

Presentation Surfaces

The Pillar of Knowledge "News Point"

On its four surfaces, the "News Point" pillar can carry a tremendous amount of information and is, at the same time, highly movable. It can be rotated around its axis and moved by means of the castors on its base.

News Point with Castors
Body in grey aluminium (RAL 9007), for holding four board elements.
Incl. base with castors.
Body size: B = approx. 790 mm,
H = approx. 1820 mm
Size of base incl. castors:
Ø approx. 720 mm, H = approx. 132 mm
Item No. 89 31 683

News Point without Castors
same as described above,
however, with base without castors.
Body size: B = approx. 790 mm,
H = approx. 1820 mm
Base size: Ø approx. 720 mm,
H = approx. 70 mm
Item No. 89 31 684

Board elements
There are many possibilities of individually combining various surfaces. All board elements are pushed in from above and can therefore be combined and exchanged easily.
Useful area: W = approx. 700 mm,
H = approx. 1450 mm

Magnetic write-on surface:

white	silber	chalk anthracite
Item No. 89 31 686	Item No. 89 31 687	Item No. 89 31 688

Pin surface:

light-blue felt	cork	natural linen
Item No. 89 31 690	Item No. 89 31 691	Item No. 89 31 692

Tailor-made

Based on the standard model, we create your News Point exactly the way you require it – both outside and inside! We integrate for example intermediate floors and a pull-out rack into the body which can be open at one or two sides, just as you want. Connections for a PC can also be integrated already in the factory.

Info Pillar Trio
Composed of:

3 pieces basic elements
W = 1000 mm, H = 1900 mm
Please choose item numbers, colours and surfaces on page 30

3 Vertical Tubes
Please find item numbers with colours on page 18

3 PK Double Fittings Set
Item No. 8958438

1 PK Corner Angles
Item No. 89 58 547
(mandatory)

1 PK Castors
Item No. 78 58 101

Option:
Interior rack as tray for Info Pillar Trio
Item No. 89 58 549

All-rounder

Whether on three or on four surfaces:
The Info Pillars Trio and Quartet ensure extensive visualisation possibilities on a small surface.

Info Pillar Quartet
Composed of:

4 pieces basic elements
W = 1000 mm, H = 1900 mm
Please choose item numbers, colours and surfaces on page 30

4 Vertical Tubes
Please find item numbers with colours on page 18

4 PK Double Fittings Set
Item No. 89 58 548

1 PK Corner Angles
Item No. 89 585478
(mandatory)

1 PK Castors
Item No. 78 58 101

Option:
Interior rack as tray for Info Pillar Quartet
Item No. 89 58 549

InfoSpin – Information Pillar

Small in size, but great in information presentation: the new information pillar InfoSpin. The most obvious feature of the mobile pillar is the star-shaped ground outline and the corresponding six panels that project from its vertical axis. Each magnetic metal panel is size 1900 x 430 mm resulting in InfoSpin providing a total display area of almost 5 square meters. With its grey-white finish and top and bottom grey aluminium plates, InfoSpin has an attractive design and colour suitable for any surroundings. The base has six lockable, soft tread wheels providing safe and easy location to location movement.

InfoSpin
6 grey-white (RAL 9002) surface panels framed in matt anodized aluminium with top/bottom of grey aluminium plates (RAL 9007). Will display up to size A3 horizontal size notices. The base has 6 wheels (lockable).

Display Area: 430 mm x 1900 mm
Outer dimensions: Ø = approx. 1040 mm, Height = 1980 mm
Item No. 82 01 104

Supplied completely assembled.

Clip-on Frame for Wall Attachment
with base plate made of magnetic, white surface incl. 1 mm thick, transparent cover to protect documents.

For Format DIN A0, effective area:
Width = 836 mm, Height = 1176 mm
Outer Dimensions::
Width = 950 mm, Height = 1290 mm
Item No. 89 32 689

For Format DIN A1, effective area:
Width = 589 mm, Height = 828 mm
Outer Dimensions::
Width = 703 mm, Height = 924 mm
Item No. 89 32 744

Felt-tip Pens
To write on the Shop Floor Templates, dry-erase, in 4 colours assort.
(red, green, blue, black)
Item No. 84 52 154

Pen Holder, magnetic
for four Felt-Tip Pens
Item No. 84 50 728

Central Hub

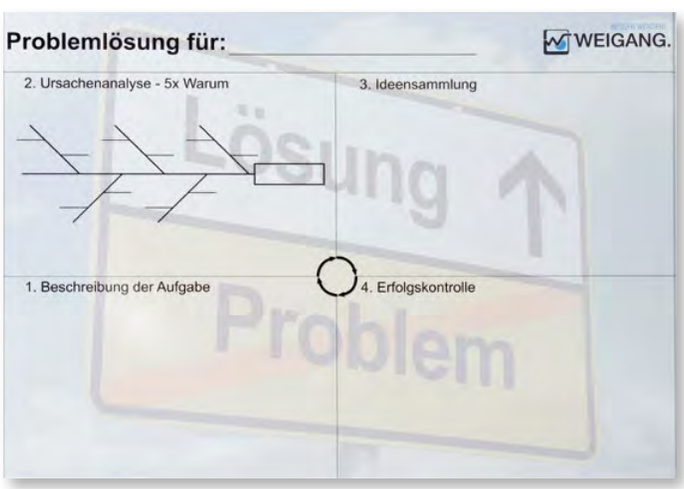
Shop Floor Management needs communication and visualisation at the site of the action. For this purpose, the Shop Floor Board is flexible to the max: Moveable on its castors, rotatable between portrait and landscape format, and due to the Clip-on Frame, the templates can be exchanged easily and quickly.

Shop Floor Board
For templates in format DIN A0, portrait or landscape; easy exchange of the templates due to clip-on frame. Use of standard or individually designed templates, with background motifs according to your choice.

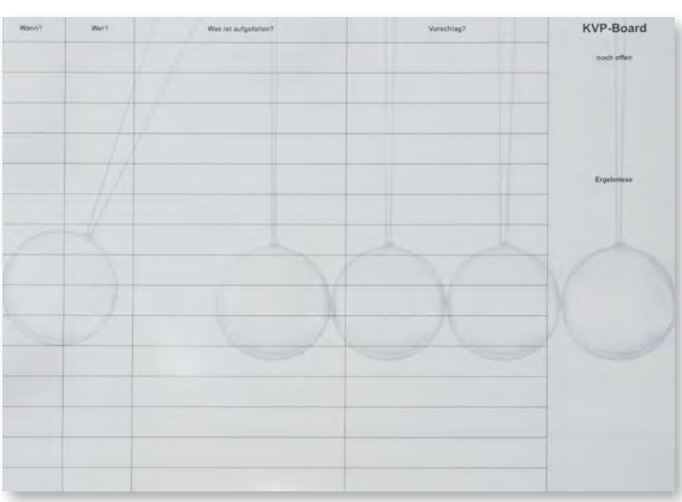
Moveable H-shaped base structure in grey aluminium, with 4 castors, 2 of them lockable.
90° rotary fitting with locking mechanism for use in portrait or landscape format.
Height-adjustable via pneumatic spring in
- portrait format from 800 mm to 1100 mm
- landscape format from 645 mm to 945 mm
effective area:
Width = 836 mm, Height = 1176 mm
Outer Dimensions:
Width = 950mm, Height = 1290 mm
Item No. 84 43 541

Shop Floor Templates
Format DIN A0, as shown below, to insert into the Clip-on Frame of the Shop Floor Board. Printed, magnetic, write-on surface (whiteboard markers).
W = 836 mm, H = 1176 mm

Problem-Solving Item No. 84 34 714

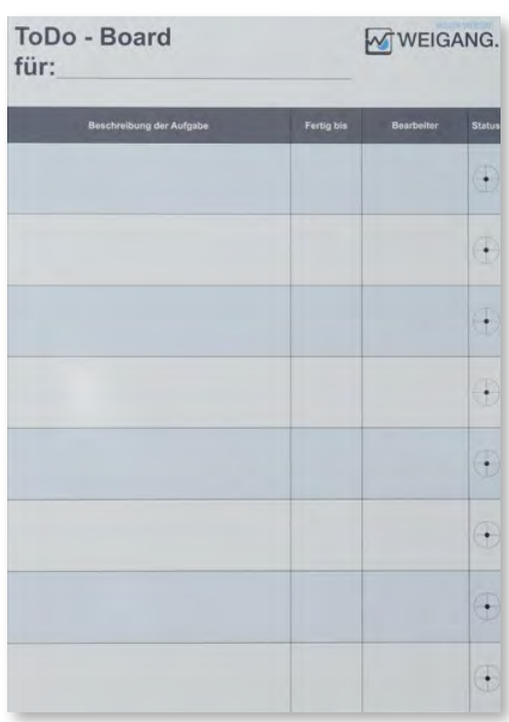


KVP Item No. 84 34 716



Individual Printing
For magnetic and write-on surface of Shop Floor Boards, according to your specifications.

ToDo Item No. 84 34 715



Shop Floor Info Center

Space in the Room

Information and communication are central elements in Shop Floor Management. In order to update oneself in a short time – with regard to production plans, key figures, current problems and improvements – the support of a visualisation solution is needed. And mostly an extensive solution is required in order to have enough space for all relevant figures, trends and goals.

For an Info Center matching individual needs, our programme includes a modular board system with various design variants. What should your tailor-made central point of information look like? Arranged in a line, in a bow or horseshoe-shaped?
Usable on one or on two sides? What properties should the board have - magnetic, write-on, covered with felt or cork or translucent?

If required, a board is equipped with additional auxiliaries as for example laptop, monitor and keyboard, or serves as storage space for binders, pens and visualisation elements.

The modular system of basic elements and oval vertical tubes is combinable in any way. Big base plates ensure a stable standing position regardless of the combination you choose.

Upon request, we print headlines, slogans, graphics and logos onto your board – exactly as prescribed by your Corporate Identity.

Information and communication are key elements in Shop Floor Management. In order to update oneself quickly – regarding production plans, key figures, current problems and improvements – a visual on-site support facilitates a lot.

Display Pockets for Paper Sizes A4 and A3

For Fast-Framers

The display pockets are equipped in the blink of an eye. Your postings in the sizes A6 up to A3 are not only reliably placed on the wall or on a board, they receive a colourful frame at the same time. Looks neat and, with the help of the many available colours, enables a thematic structuring as per your personal colour code.

Handling Tip:
For subsequent hand-written markings or additions on your documents just slide the transparent cover to the side and then back again! Or you write directly on the cover with a wet-wipe pen.
The options “self-adhesive or magnetic back“ provide for a secure attachment of the pockets on all common presentation surfaces.

Display Pockets
Made of plastic, edged on 3 sides, for the following paper sizes:

A3 portrait	W = 303 mm, H = 425 mm, D = 3 mm
A3 landscape	W = 425 mm, H = 303 mm, D = 3 mm
A4 portrait	W = 218 mm, H = 303 mm, D = 3 mm
A4 landscape	W = 303 mm, H = 215 mm, D = 3 mm

Display Pockets

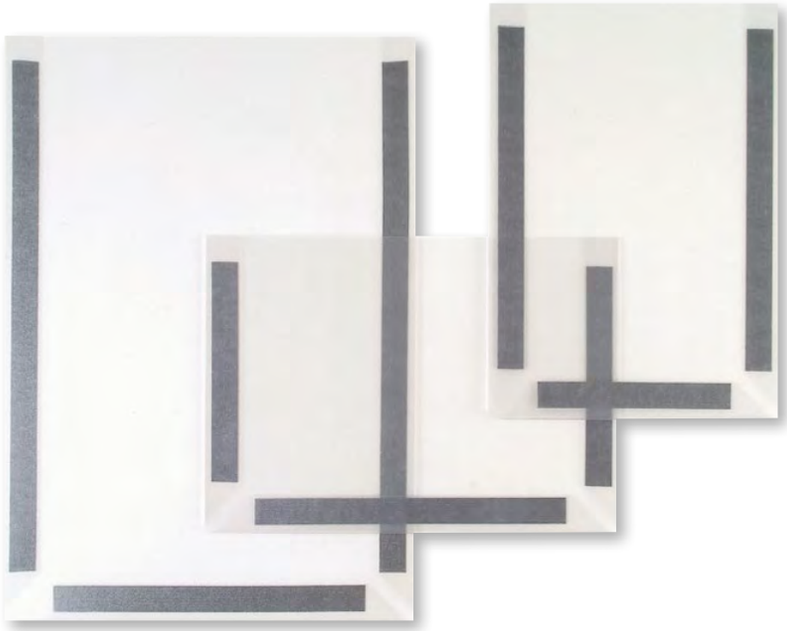
Invisible

Here, the contents achieve an effect – and only the contents! The frameless Display Pockets fix and protect your documents and pictures. Besides that, they discreetly fade into the background. Three magnetic strips on the reverse side of the pockets ensure secure but reversible attachment.



Display Pockets
frameless, edged backwards on 3 sides, made of transparent plastic, magnetic, for paper sizes:

DIN A4 portrait
W = 218 mm, H = 303 mm, D = 3 mm
Item No. 82 50 483

DIN A4 landscape
W = 303 mm, H = 215 mm, D = 3 mm
Item No. 82 50 484

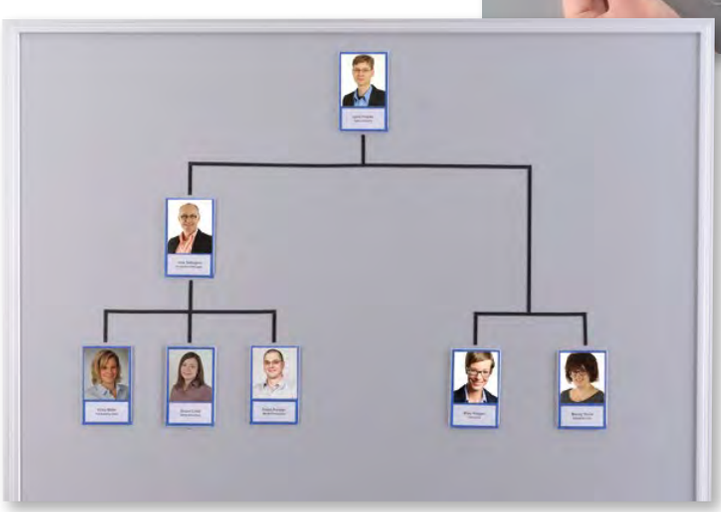
Item No. 82 50 486

DIN A2 landscape
W = 601 mm, H = 425 mm, D = 3 mm
Item No. 82 50 487

Portrait Holder
Edged backwards on 3 sides, magnetic, one short side open, W = 70 mm, H = 112 mm, D = 3 mm
Item No. 82 50 783



Magnetic Strip
For the division of Visualisation Boards
L = 1000 mm, H = 5 mm, colour black
Item No. 84 50 543

Screw or Pin

Either “for eternity“ or “here today, there tomorrow“: Whoever mounts the sturdy metal display pocket with its four screws demonstrates: From now on information always here!
Contrary to this are the leightweight plastic pin-type Display Pockets. Here the message is: I just want to attach it here for the moment! This type is suitable for use at for example the presentation (c.f. page 20).

Upon request and against a little surcharge we supply the metal Display Pocket in RAL colours, matching your company’s Corporate Identity. We are looking forward to your enquiry.

Item No. 89 51 797

Cover (no fig.)
matt/clear for display pocket
for paper size A4 portrait/landscape
Item No. 82 50 300
for paper size A3 portrait/landscape
Item No. 82 50 301
for paper size A5 portrait/landscape
Item No. 82 50 323

Display Pockets
made of metal, one short side open, with holes for attachment in portrait or landscape format

Display Pockets
made of plastic, transparent, to pin on surfaces made of felt, cardboard, cork or linnen. For paper sizes:
A4 portrait
W = 218 mm, H = 303 mm, D = 3 mm
Item No. 82 50 304

A4 landscape
W = 303 mm, H = 215 mm, D = 3 mm
Item No. 82 50 303

Illuminated Frame “Sensor Twink“
flashing LED frame with motion sensor, high-quality aluminium construction, wireless operation using 3 Mignon (AA) batteries (service life approx. 2 months), activation of the flashing lights through approach of the observer, simple exchange of information through the integrated brochure holder for paper size A4.

	Item No. yellow	Item No. red	Item No. blue	Item No. green

Framed

The Magnetic Frame surrounds your document all over with a clear-colour frame. Invisibly open at one side, it can easily be equipped. Also practically invisible: the anti-reflective foil which reliably protects your posting against dirt, draught and damage.

Magnetic Frames
In five colours, made of transparent, anti-reflective foil. Magnetic through three magnetic strips, one short side open, usable for portrait and landscape format.

For paper size A3
Outer dimension: 326 mm x 450 mm

red	Item No. 82 50 846
green	Item No. 82 50 849

5 pieces = 1 pack

red	Item No. 82 50 836
green	Item No. 82 50 837
blue	Item No. 82 50 838
yellow	Item No. 82 50 839
silber	Item No. 82 50 872

Generous

Whether manual, product documentation or simply data sheets to take away: The transparent document holder demonstrates its full potential already from a distance. Open at two sides, it willingly receives small brochures or stacks of paper and just as willingly gives them away again.

Document Holder, self-adhesive
Made of anti-reflective acrylic, with protruding upper edge, quick and easy exchange of documents. Self-adhesive back, for paper sizes:

DIN A3 portrait	Item No. 07 00 023
DIN A3 landscape	Item No. 07 00 026
DIN A4 portrait	Item No. 07 00 017
DIN A4 landscape	Item No. 07 00 020

Document Holder, magnetic
Made of anti-reflective acrylic, with protruding upper edge, quick and easy exchange of documents. Back: two magnetic strips at short side, for paper sizes:

DIN A3 portrait	Item No. 07 00 024
DIN A3 landscape	Item No. 07 00 027
DIN A4 portrait	Item No. 07 00 018
DIN A4 landscape	Item No. 07 00 021

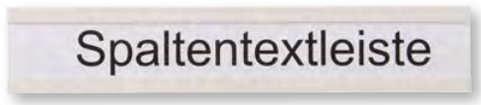
Heading and Column Text Strips made of plastic

Heading Text Strip
made of transparent, anti-reflective plastic, C-shaped, edged backwards, magnetic, incl. white cardboard strip, L = 700 mm, H = 100 mm
Item No. 89 50 696

Column Text Strip
made of transparent, anti-reflective plastic, C-shaped, edged backwards, magnetic, incl. white cardboard strip
Item No. 89 50 697

Heading and Column Text Strips made of aluminium

Heading Text Strip
made of C-shaped aluminium profile, magnetic back, colour white RAL 9002, please order a Foil Strip in the appropriate length



Column Text Strip

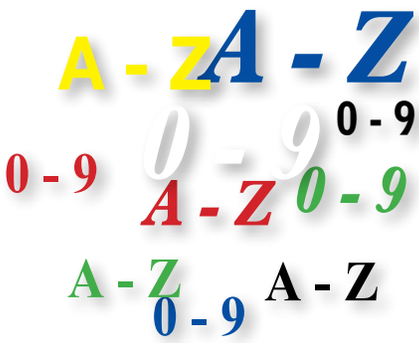
Naming

Give the child a name and a logo! Either you decide to have a permanent lettering and order your Visualisation Board according to your wishes. Or you stay flexible and and use a magnetic Label Holder whose position and text can be changed whenever you want.



* The letters / texts are available in the following colours (*): yellow (3), red (4), blue (5), green (6), grey (7), and black (8).

Labelling for Visualisation Boards and Magnetic Stripes
Texts cut from coloured adhesive foil. The visualisation boards are delivered completely labelled, according to your specifications.

Height:

20 mm	Item No. 89 80 02*
30 mm	Item No. 89 80 03*
40 mm	Item No. 89 80 04*
50 mm	Item No. 89 80 05*
60 mm	Item No. 89 80 06*
70 mm	Item No. 89 80 07*
80 mm	Item No. 89 80 08*

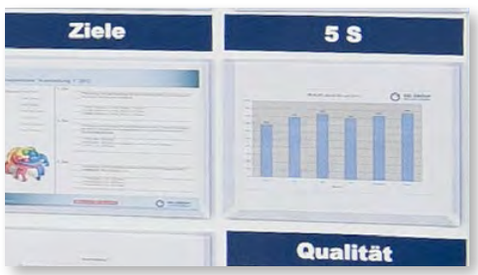
Magnetic Strip (no fig.)
L = 305 mm, H = 50 mm, in five colours, for lettering with

white	Item No. 89 50 414
yellow	Item No. 89 50 679
blue	Item No. 89 50 619
green	Item No. 89 51 416
red	Item No. 89 51 417
black	Item No. 89 51 450



Example

Magnetic Strip
lettering for column subdivision, L = 305 mm, H = 50 mm, font height 30 mm, font available in the colours yellow, red, blue, green, grey and lack, font: Arial

Linear

To draw a line without pen – this is no problem with magnetic strips. Visualisation boards can be divided into cells, underlinings and other markings can be positioned. Texts can be written on the strips – ex works or on your own – and are as quickly completely removed as they were placed.

Magnetic tape on rolls
L = 10 000 mm,
H = 50 mm

L = 1000 mm, H = 40 mm
Item No. 84 50 258

Document Dispenser
made of crystal-clear plastic,
back side magnetic or self-adhesive,
capacity approx. 35 mm,
for the following paper sizes:

Size A4 portrait
H = 250 mm, W = 225 mm, D = 40 mm
Item No. 89 50 425 magnetic
Item No. 89 51 037 self-adhesive

Size A5 landscape
H = 135 mm, W = 222 mm, D = 40 mm
Item No. 89 50 426 magnetic
Item No. 89 50 933 self-adhesive

Size A5 portrait
H = 165 mm, W = 161 mm, D = 40 mm
Item No. 89 50 427 magnetic
Item No. 89 51 253 self-adhesive

Size A6 portrait
H = 165 mm, W = 112 mm, D = 40 mm
Item No. 89 50 428 magnetic
Item No. 89 51 254 self-adhesive

Take it!

Blank forms, receipts, brochures, flyers – like a helpful employee, the Document Dispenser offers you, your colleagues, customers and guests documents to take away.

Information Box
A4 vertical made of 3 mm acrylic glass,
with cover flap and elastic hinge, magnetic or wall mounted,
capacity approx. 50 mm
Item No. 89 50 424

Idea Box
to collect for example suggestions for improvements, made of metal, white, with lock, magnetic on reverse side
Size: W = 215 mm, H = 315 mm, D = 75 mm
Item No. 89 50 649

Pen Clip
Holder for writing utensils, small tools, etc., made of plastic, approx. 40 mm in dia., clamping width 5 to 15 mm,
10 pieces per pack

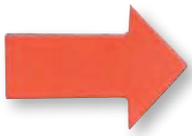
Available in the following colours

	Item No.
black/black	82 50 532
black/red	82 50 533
black/yellow	82 50 534
black/green	82 50 535
black/blue	82 50 536

Smiley
magnetic,
Ø = 50 mm, 5 pieces per pack,
available in the colours:

Colour:

green	Item No. 84 50 628
yellow	Item No. 84 50 627
red	Item No. 84 50 626



Arrow
magnetic, red,
W = 30 mm, H = 20 mm,
5 pieces per pack,
Item No. 84 50 633

Document Pockets

Highly adhesive special magnets keep the pocket made of plastic exactly where you want it to be.

Document Pocket
Made of soft transparent foil, magnetic, for the following paper sizes:

A4 portrait with protective flap
W = 245 mm, H = 375 mm
Item No. 89 50 431

A5 landscape with protective flap
W = 245 mm, H = 225 mm
Item No. 89 50 430

A4 portrait with zip lock
W = 245 mm, H = 375 mm
Item No. 89 50 433

A5 landscape with zip lock
W = 245 mm, H = 225 mm
Item No. 89 50 432

Document Pocket
for paper size A6 landscape, made of soft, transparent foil, open at top, with grip cut-out, magnetic
W = 165 mm, H = 140 mm
Item No. 89 50 840

Adherent to Glass

This pocket also sticks to glass panes. It looks good also from the rearside and can be removed again easily.

SA Pocket NP
transparent, for portrait/landscape formats, document formats open on two sides, allows easy placement of documents; the papers are kept in place with the corner flap. Reverse side self-adhesive, the special adhesive glue guarantees a residue-free removal and multiple use of the pocket.

For the following sizes:
A3 / 10 pieces = 1 pack
Item No. 82 50 715

A4 / 25 pieces = 1 pack
Item No. 82 50 605

We are glad to produce the Document Pockets in the size you require as well as with a magnetic adhesion tailored to your individual needs.

We will be happy to assist you.

Document Pocket
Hard foil backing in grey blue, transparent front pocket, welded edge folding, capacity approx. 10 mm, for the following paper sizes:

Size A4 portrait
Item No. 76 00 372 magnetic
Item No. 76 00 396 self-adhesive

Size A4 landscape
Item No. 76 00 373 magnetic
Item No. 76 00 395 self-adhesive

Size A5 landscape
Item No. 76 00 371 magnetic
Item No. 76 00 403 self-adhesive

Supported by Magnets

The ring clamp and the paper clamp are mounted onto strong magnets. In every-day application, they hold their position as strong as iron on metallic surfaces, but if you want you can move it without tools and residue-free.

4-hole Ring Clamp
magnetic, with up to 25 mm capacity
Item No. 89 50 420

5-colour File Divider Set DIN A4
made of plastic, with front and rear transparent pocket made of nonreflecting film, Colours: white, blue, red, yellow, green
Item No. 82 50 538

Paper Clamp
magnetic, with strong spring clip, capacity approx. 10 mm
W = 120 mm, H = 30 mm
Item No. 89 50 574

Coloured File Divider DIN A4
made of plastic, with front and rear transparent pocket made of non-reflecting film, available in:

white	Item No. 82 50 539
blue	Item No. 82 50 540
red	Item No. 82 50 541
yellow	Item No. 82 50 542
green	Item No. 82 50 543

On your table and mounted to the wall

With this elegant reference work frequently needed information is ready at hand in no time: The protective foil ensures that price lists, telephone numbers, addresses or manuals look good even after frequent use.

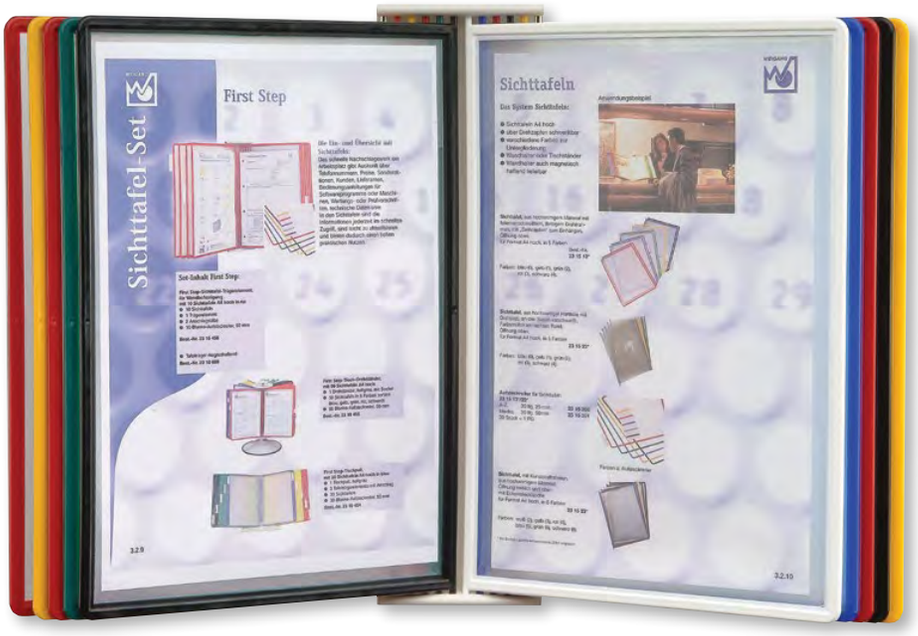
Magnetic Organizer System KR
for the desk. The round, elegant base provides for stable standing. Including 10 organizer pockets with plastic frame in anthracite
Item No. 23 15 427

Magnetic Organizer System KR
for wall mounting. Including 10 organizer pockets with plastic frame in anthracite and mounting material
Item No. 23 15 433

Organizer Pockets

Work of Reference

In leaf-through Organizer Pockets, frequently needed information is ready at hand in no time: The protective foil ensures that price lists, telephone numbers, addresses or manuals look good even after frequent use.



Magnetic Organizer System KR
for A4 portrait, magnetic,
consisting of:
1 wedge-shaped panel bracket
2 stop bars,
10 transparent pockets made of
high-quality foil with corner flap,
plastic frame colour optional: white,
yellow, red, blue, green, black or assorted
Item No. 23 15 356

Magnetic Organizer System TA
for A4 portrait, magnetic,
consisting of:
1 wedge-shaped panel bracket
2 stop bars,
10 transparent pockets made of
high-quality foil with corner flap,
plastic frame colour optional: white,
yellow, red, blue, green, black or assorted
Item No. 23 15 456

The Panel Bracket

gives firm hold to your Organizer Pockets – thus you never lose track.

Panel Bracket for wall mounting
wedge-shaped, for wall mounting, for holding 10/12 display panels for the paper sizes A4 portrait, A4 landscape and A5 portrait.
Made of metal, grey-white (RAL 9002)

Size A4 portrait	Item No. 23 15 421
Size A5 portrait	Item No. 23 10 182

Panel Bracket
same as described above, however, magnetic on reverse side

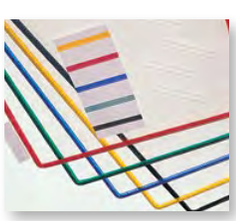
Size A4 portrait	Item No. 23 15 428
Size A5 portrait	Item No. 23 10 138

Stop Bars for Panel Bracket

Size A4 portrait	Item No. 23 15 423
Size A5 portrait	Item No. 23 10 184

Organizer Pockets TA
with wire-reinforced, coloured frame, with "swivel pin" for insertion, open at top, for size A4 portrait, available in the colours:

Colour:	Item No.
blue	23 15 130
yellow	23 15 131
green	23 15 132
red	23 15 133
black	23 15 134



Tab inserts for Organizer Pockets TA
allowing easy and clear labelling, in various colours.

A–Z, 30 pieces, 25 mm
(only for 231513* and 231523*)
Item No. 2315360

Blank, 30 pieces, 50 mm
(only for 231513* and 231523*)
Item No. 23 15 361

Organizer Pockets KR

with high-quality plastic frame. Open at top and at one side. This allows an easy exchange of documents. The corner flap at the upper left corner secures the documents.

Organizer Pockets KR
for size A4 portrait, available in the colours:

Colour:	Item No.
white	23 15 332
yellow	23 15 333
red	23 15 334
blue	23 15 335
green	23 15 336
black	23 15 338

Organizer Pockets KR
for size A5 portrait, available in the colours:

Colour:	Item No.
white	23 15 332
yellow	23 15 333
red	23 15 334
blue	23 15 335
green	23 15 336
black	23 15 338

Information Boards with Individual Print

Filling Display Surfaces with Life

The backgrounds of visualisation and organisation boards can offer unmistakable, visually appealing exhibition values instead of boring emptiness!
Printed pictures, slogans, logos and graphics add a personal touch to your presentation surfaces and turn them into a real “eyecatcher”. Tables, grids, scales or coordinate systems – permanently fixed to the board – contribute to integrating and clearly communicating your varying information into set structures. The integration of a monitor is also possible.

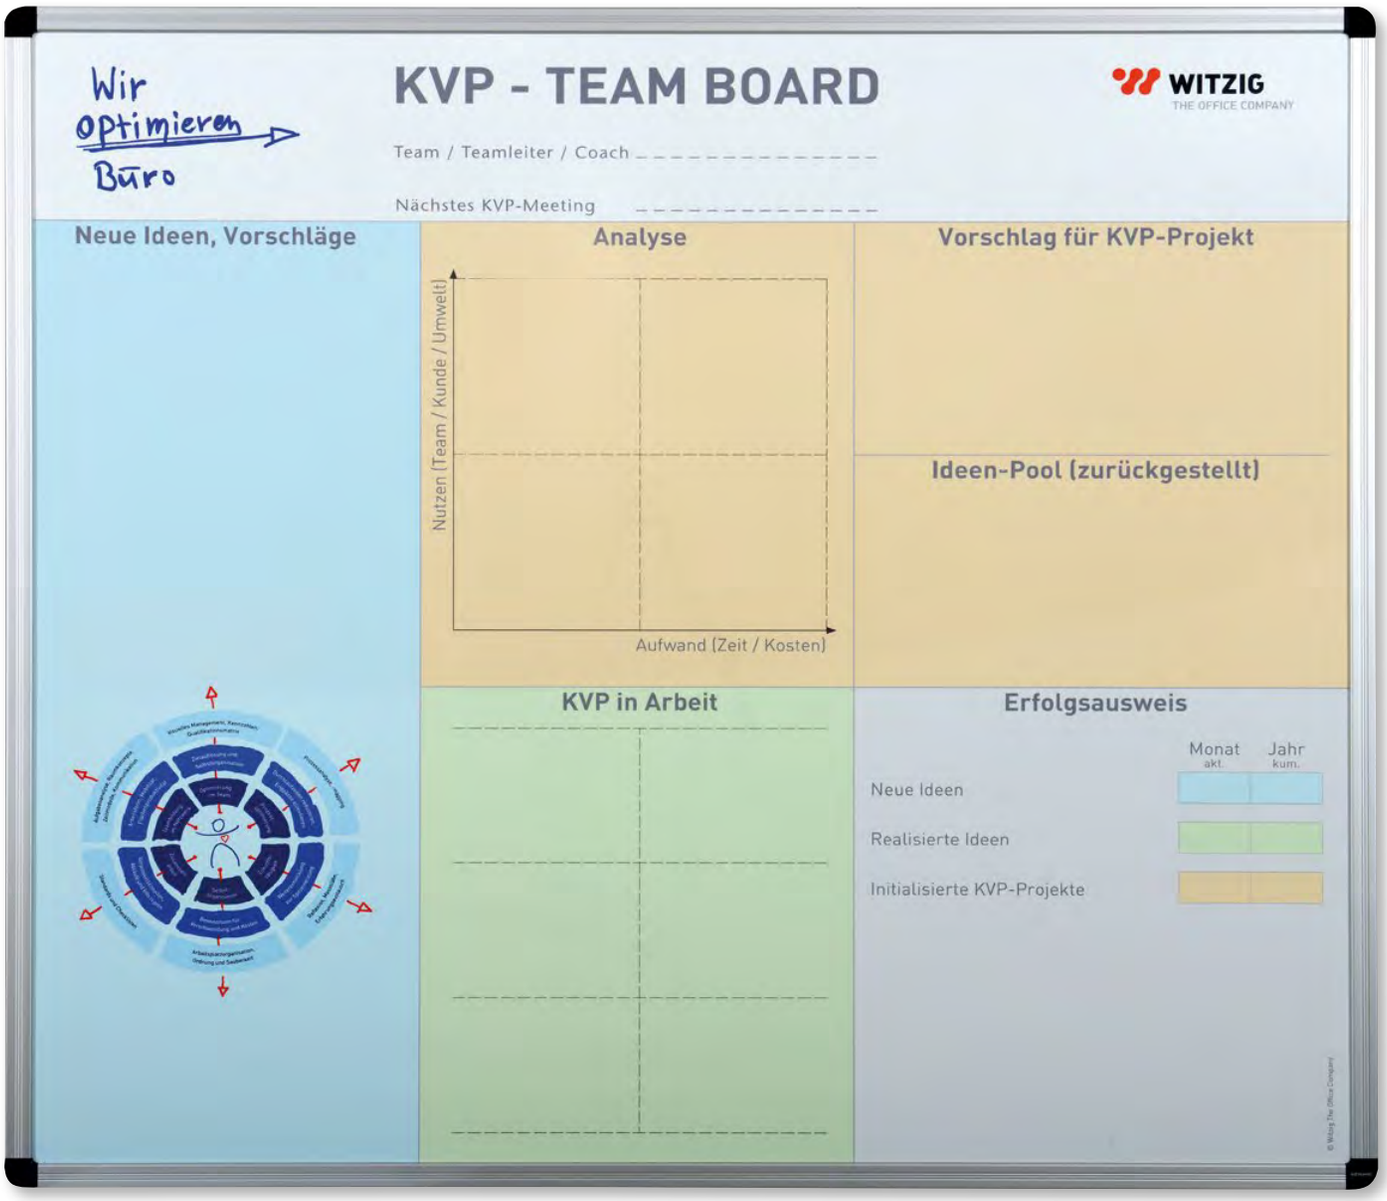
Your Advantages:

- comparatively inexpensive print in photographic quality
- absolutely plane surface as the ink evaporates completely into the material (no application of paint)
- high colour fastness and UV resistance
- write-on surface (dry-erase pens)

From now on, you determine the layout of your pinboard, notice board, visualisation or organisation board yourself!

We will be glad to use the layout provided by the client. For this purpose, we need a high-resolution template file in vector format, as for example *.eps, *.ai, *.svg, *.cdr or *.pdf.

As an alternative, we help you in working out the look of your personal “display surface“. Practically all common file types can be integrated in the design. Graphics, photos, fonts, logos – everything is possible!



The Board for the Continuous Improvement Process

In production, logistics, service and administration Visualisation Boards make the Continuous Improvement Process (CIP) transparent. In the ideal case, visualisation leads to the employees' mutual stimulation to contribute to the thought and development process.

Apart from FiFo Board and FiFo Box, the CIP Board is a valuable tool for support directly at the workstation.

The individual print in photographic quality fills the background of the board with life. The customer only supplies high-resolution digital pictures as well as further design elements of his choice.

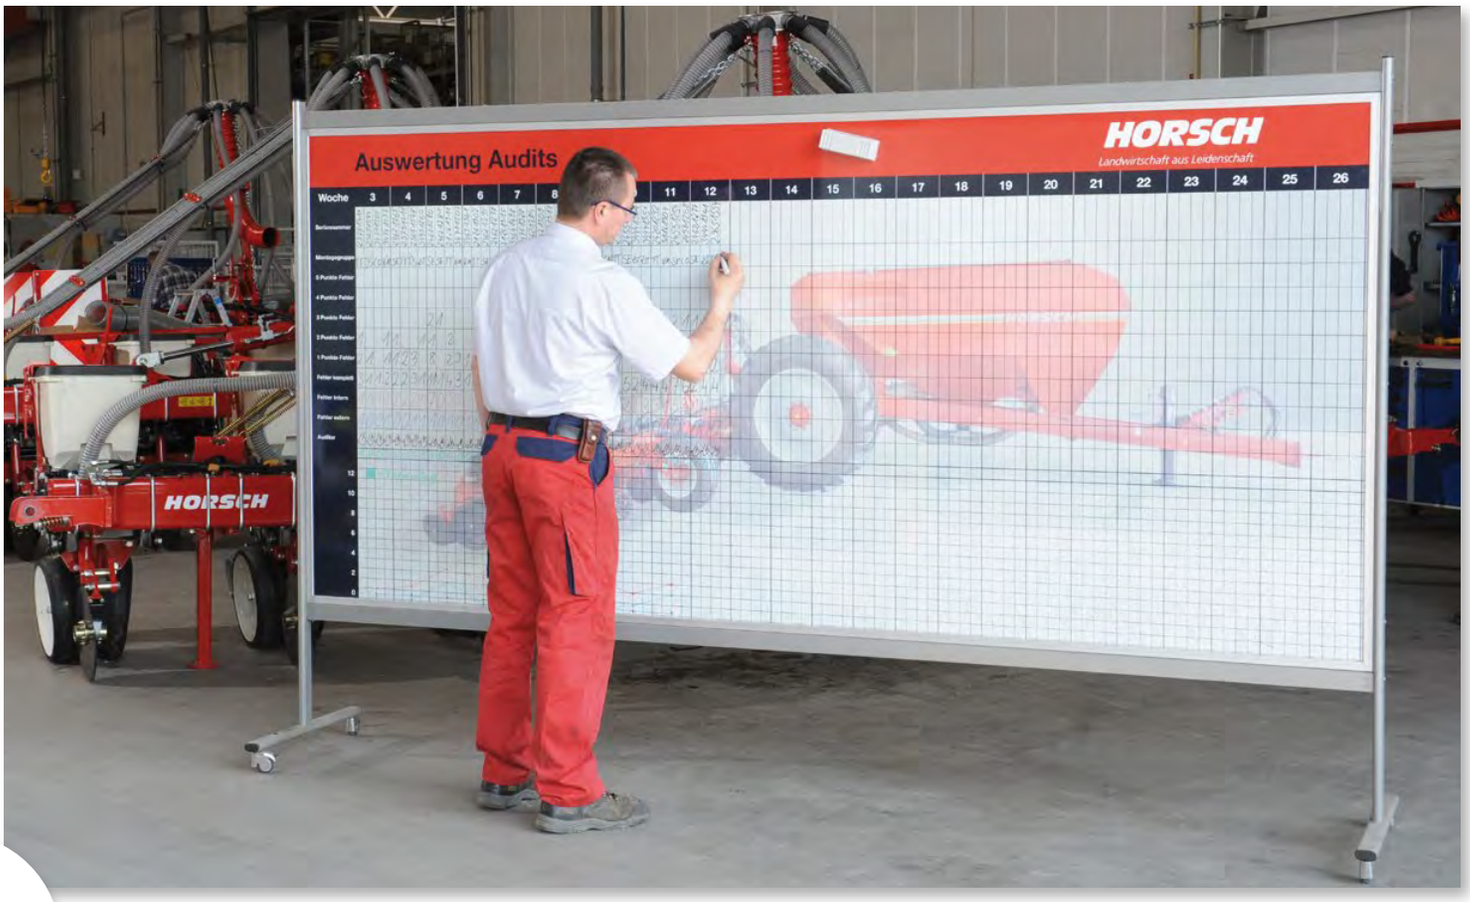
Motifs are for example logos, graphics, machines, buildings, products or team pictures. Due to the unmistakable look, every department or division can define and identify at first glance. This strengthens the team spirit and unites for new tasks.

The limitation of the number of possible suggestions leads to the fact that already in the process information is filtered according to relevance. To write the suggestions on the board, dry-erase pens are used.

In addition to that, information as for example statistics or results sheets can be placed securely and reversibly on the board surface with magnetic Display Pockets.

Visual management is an important instrument to make information visible. A transparent and clear presentation of information considerably contributes to the motivation of all people involved.

Information Boards with Individual Print



Visualisation Boards, matching your Corporate Identity

The freedom of design provides for an exact orientation at the Corporate Identity and the Corporate Design of the customer company. The customer also determines the functional “equipment“, as for example grids or letterings, according to his specific requirements.

By means of the sublimation print, motifs, lines and texts become extremely durable and fixed scratch-proof to the metal board. You can write on the board surface with dry-erase pens.

As the board is magnetic, the board coach can securely attach selected information with magnetic Display Pockets. It is also possible to work with practical magnets as for example symbols, bars and strips with the help of which organisational methods can be illustrated easily.

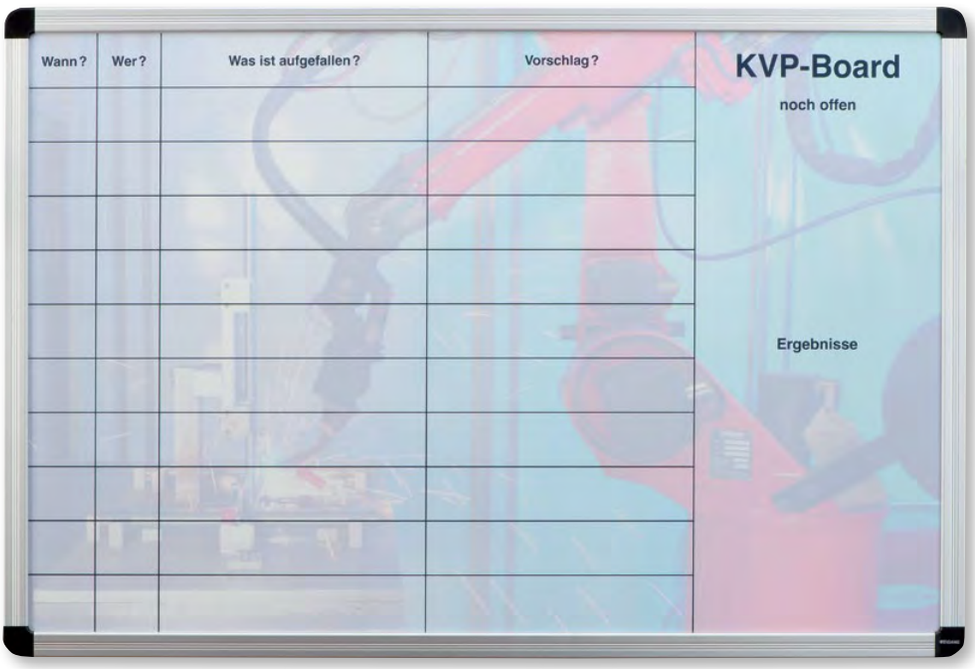
Apart from the Continuous Improvement Process, the board can also be used in connection with other operational optimisation measures.

Moreover, the highly individualised information board is suitable for the explanation of complex facilities as well as for the presentation of machines and products which for instance are not readily accessible for security reasons.

The individual boards can be produced up to a width of 2100 mm and a height of 1200 mm. If even bigger sizes are requested, several board elements can be assembled.

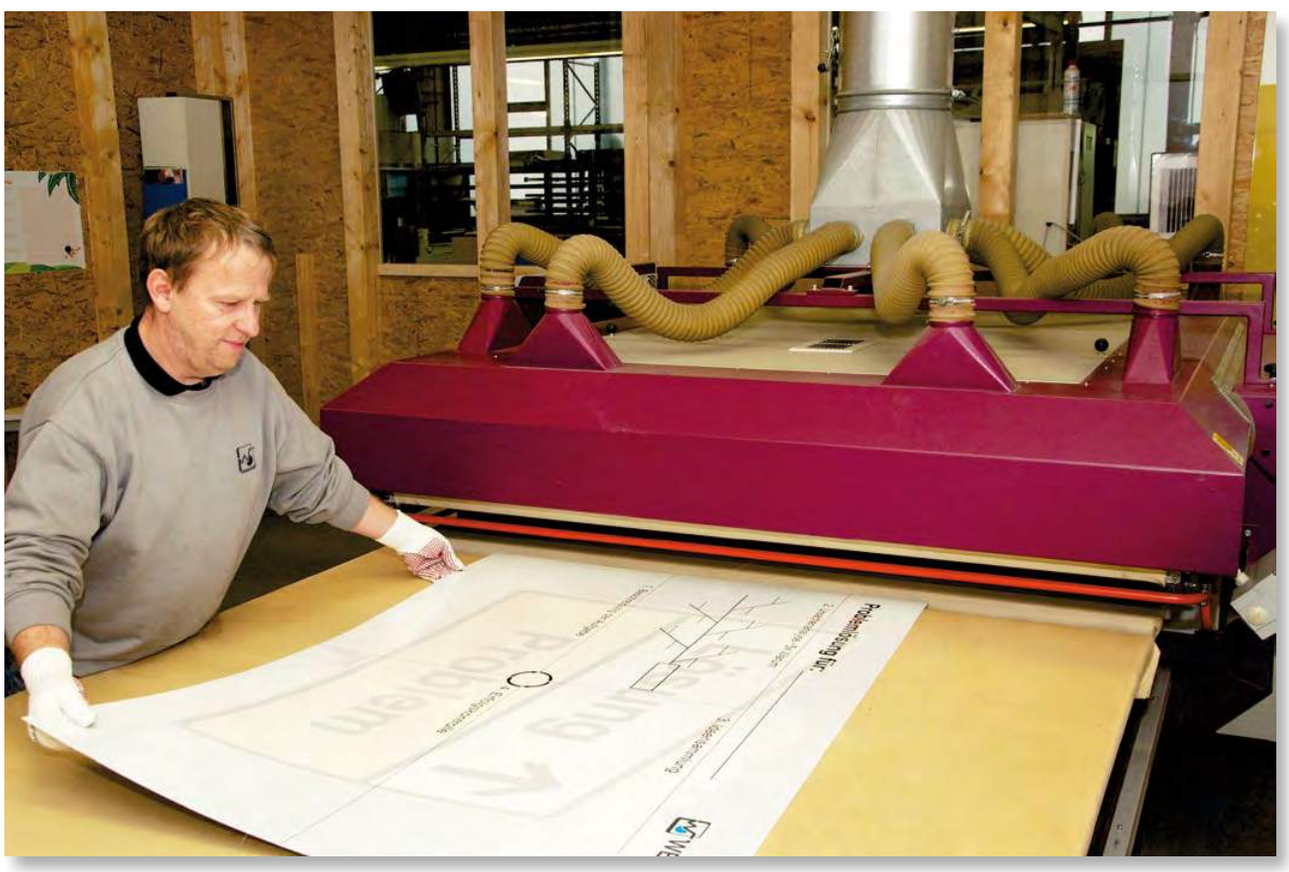
Working at the Board

The robot is a symbolic motif. It is an allegory of efficient and fast working (in Russian, work means “rabota“, which is the origin of the term robot) intelligence, high-technology and ultimately economic growth. For this reason, the welding robot is a meaningful background motif for our CIP Board and awakens many associations. The sublimation print of the board is scratch-resistant and has a ferromagnetic, write-on surface.



CIP Board
600 x 900 mm, aluminium anodized frame with corner angles in black
Motif: Welding robot
Item No. 84 34 531

With a width of 90 cm and a height of 60 cm, the board has a handy size and can be transported easily. Thus, the information written down at the workplace can be transported to meetings without difficulty and vice versa. The beautiful appearance makes the board an eyecatcher and important information and remarks do not disappear in the “IT data grave“.



Scale, plain
white, 280 mm long,
horizontally 17 mm, perforated

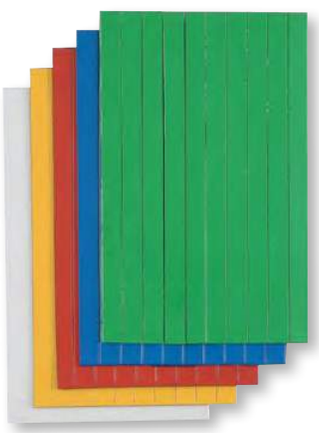
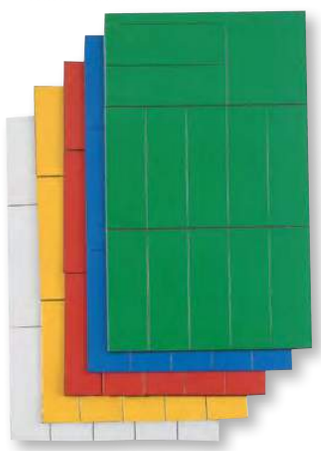
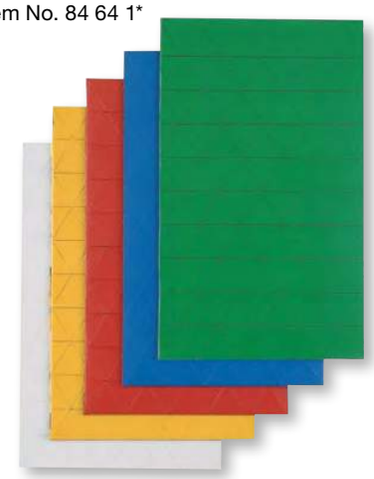
Magnet Strip
165 x 10 mm
10 strips per sheet
Item No. 84 67 4*



Rectangular
20 x 60 mm
12 per sheet
Item No. 84 63 7*



Triangular
20 x 20 x 20 mm
40 per sheet
Item No. 84 64 1*



Starter Kit
4 dry-erase pens (red, blue, green, black)
1 magnetic pen holder
10 round magnets (red, green, blue)
1 dry eraser
1 bottle of cleaner
10 sheets of blotting paper
Item No. 84 59 510

Cleaning Fluid
For a thorough cleaning of the whiteboard surface = 250 ml
Item No. 84 52 900

Felt-Tip Pens
for writing on the white board surface, dry-erase pens, in 4 colours (red, blue, green, black)
Item No. 84 52 154

Dry-Erase Pad
for quickly erasing large areas
L = 140 mm, W = 55 mm, H = 30 mm
Item No. 84 52 805

Blotting Paper
absorbent, tearproof fleece paper for dry-erase pad
L = 190 mm, W = 140 mm
Item No. 84 52 856

Visual Communication

The posting system VisuModul presents information for employees, customers and visitors on a clearly structured board surface

With Display Pockets and Document Holders
Sales figures, quality information, code of behaviour, contact lists and much more – protected from external influences your documents are presented attractively either in Display Pockets (E Type) or in Document Holders (D Type).

Individual Lettering and Colour Code
The whiteboard surface is framed by blue terminal strips at top and bottom. The lettering and the colour design of the text strips are defined by the customer. A uniform colour code in the lettering texts makes it easy for the observer to find the information which is relevant at the moment.

Modular structure
The board system has a modular structure. In this way, the precisely suitable combination and size can be assembled. The standard programme includes two heights (958 mm and 1350mm); the system is freely expendable to the side. Custom-made boards with individual board size and colour can be produced at any time. You can choose between wall attachment and attachment to a free-standing frame.

Also in ESD protected areas
Many production processes, especially in the semiconductor and electronics industry are very sensitive to uncontrolled static discharge. However, these areas do not have to do without a VisuModul Information Board. Into the powder coating of the ESD board type, fine soot particles are integrated, increasing the conductivity of the surface. A static charge is therefore excluded. The white surface shows a “salt-pepper-effect“. Anti-static Display Pockets and Document Holders are of course also available.
The following pages guide you through the multiple elements of the product lines and related accessories.

Item No. 07 13 300

Depending on the area of use and application as well as on mechanical and chemical stress, heat or UV radiation, the properties of the ESD foil, powder or glue can be influenced.
We recommend a permanent potential equalisation (grounding) and a regular check of the products used by an in-house ESD representative.

Cascading Display Basic Unit
made of metal, white surface with conductive powder coating similar to RAL 9010, with “salt-pepper-effect”.
Capacity approx. 15 mm,
consisting of:
- 1 pair of wall-mounting brackets
- 2 compartments
- 1 cover plate

For size:

A5 landscape	Item No. 81 13 249
A4 portrait	Item No. 81 13 299

Cascading Display Compartment
for expansion of the basic unit
width x depth x height in mm
W = 235 mm, H = 135 mm, D = 15 mm
Visible edge 38 mm,
For size A5 landscape
Item No. 81 11 049

W = 235 mm, H = 290 mm, D = 15 mm
Visible edge 68 mm
For size A4 portrait
Item No. 81 11 099

ESD for Sensitive Production Sectors

Electrostatic Discharge, in short ESD, stands for electrostatic discharges which cause a very short yet high current pulse. In many branches of industry as for example the pharmaceutical, semiconductor and electronics industry as well as in the plastics processing industry, in painting and coating facilities and also in the production of microchips and circuit boards these uncontrolled discharges must be strictly avoided. The ESD product line shows that you do not have to do without classification and planning systems in these sensitive production sectors.

ESD KANBAN Board
With 50 pockets of grey-transparent antistatic foil. Back panel of metal, white surface, with conductive powder coating, similar to RAL 9010, with “salt-pepper-effect”. Protruding flap at the top, incl. two pre-drilled holes for mounting.
For document size 76 mm x 195 mm,
Visible edge = approx. 20 mm,
W = approx. 96 mm,
H = approx. 1200 mm
D = approx. 18 mm
Item No. 83 30 002

ESD KANBAN Board
With 27 pockets of grey-transparent antistatic foil. Back panel with white surface, conductive powder coating similar to RAL 9010, with “salt-pepper-effect”.
Protruding flap at the top, incl. two pre-drilled holes for mounting.
For document size A5 landscape,
Visible edge = approx. 40 mm,
W = approx. 230 mm,
H = approx. 1200 mm,
D = approx. 18 mm
Item No. 83 30 003

ESD Docu Panel II
With 14 pockets of grey-transparent antistatic foil. Back panel with white surface, conductive powder coating similar to RAL 9010, with “salt-pepper-effect”. Including suspension angle. For document size A4 portrait, Visible edge = approx. 60 mm,
W = approx. 247 mm,
Item No. 83 30 004

Cascading Display

One Compartment – a Thousand Possibilities

The Cascading Display filing and presentation system organises your papers: forms, price lists, work instructions, order documents, magazines, catalogues and brochures disappear from the workplace and are neatly arranged on the wall. The modular system is expandable at any time.

Cascading Display Basic Unit
Made of metal, powder coated, capacity approx. 15 mm, consisting of:
1 pair of wall mounting brackets, 2 compartments, 1 cover plate = 1 PU for the formats:

Order Overview with Cascading Displays

Some incoming deliveries involve “special tasks“. Such deliveries may include particularly high-quality products which have to be handled with extreme care, perishable goods which should be forwarded very quickly or goods which are to be examined especially thouroughly. These special tasks should be communicated to the team members as systematically and unambiguously as possible.

Standard Version with 35 Compartments
The variant “Order Overview Goods Receipt“ consists of an overall number of 35 compartments in seven columns with five compartments each, mounted to a graphite coloured base plate. One column is assigned to one weekday. In addition to that, there are the columns “work in progress“ and “interruption“.

Composed of Compartment System
The system consists of solid metal compartments arranged in cascades. A lot of papers can be stored in a small space. The Cascading Display system is of modular design: An expansion downwards by simply putting together the individual compartments or sidewards with an additional basic unit is possible without any problems.

TeamBoard
in the sizes:
width = approx. 1900 mm, height = approx. 850 mm

with 35 Cascading Display Compartments, colour grey aluminium RAL 9007.

The lettering of the Heading Text Strip as well as the column texts are freely selectable.
Item No. 81 19 900

Pockets for the TeamBoard

Our colourful OrgaPockets are a practical addition to the Cascading Display compartment system. They are available in six colours: grey blue, light grey, red, yellow, blue and green. Through clever colour coding, an immediately comprehensible further information level opens up. The colour code can provide information on for example processing priorities, complaint consignments or the specialist department waiting for a delivery.

The pockets have a sturdy back and transparent foil pockets on both sides, each of them able to hold documents up to a thickness of 5 mm. The OrgaPockets are suitable for documents up to paper size A4. Order documents, check lists or delivery protocols contained in OrgaPockets can be placed into the planning board.

OrgaPockets
for paper size A4 portrait
W = 222 mm, H = 312 mm
5 pieces = 1 PK

Colours	Item No.

red	83 49 023
yellow	83 49 024
green	83 49 025

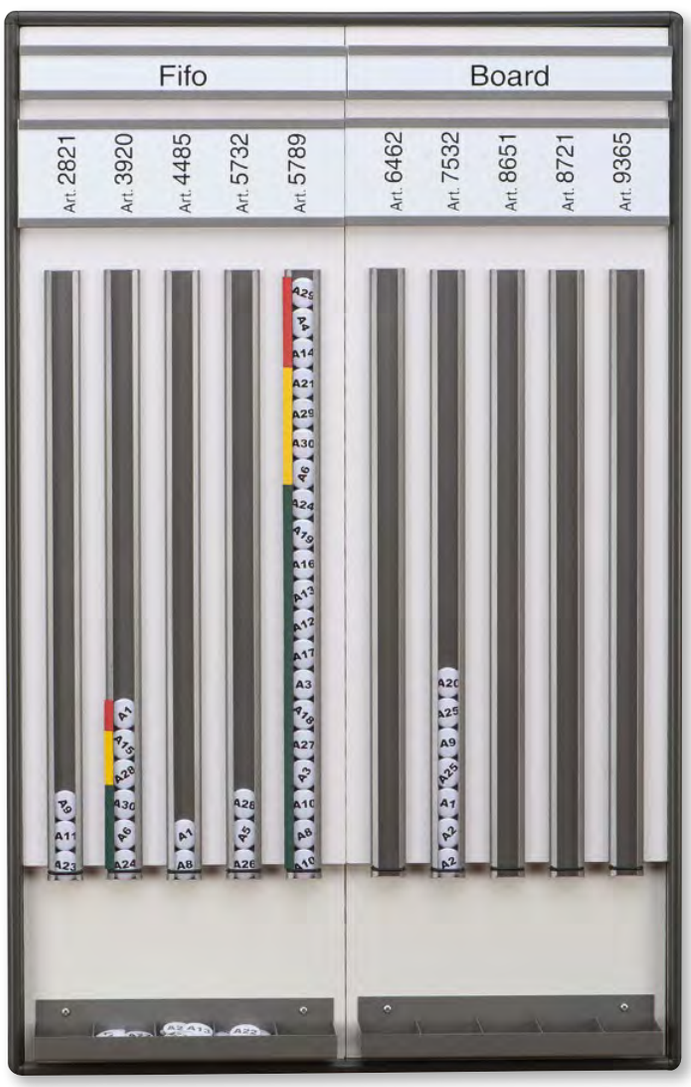
FiFo Board

FiFo – up-to-date and in line with the times

Keeping track of complex processes is still a challenge for organisational experts. In warehouses or when dealing with customer orders, the FiFo principle has proved its value. FiFo was developed in the striving for continuous improvement and means “First in – First out”.

In warehouses, FiFo prevents “shelf warmers” from settling down and goods from deteriorating or over-ageing. When processes are worked off, the FiFo principle regulates a reasonable sequence in consideration of the incoming orders. This avoids that orders are left undone too long and it prevents customers from possibly being annoyed by delays.

The FiFo principle is simple and it calls for a simple organisational structure. IT is not always the preferred solution.



Managing stocks with the FiFo Board
In small-parts or pallet warehouses there is often no overview of when which parts were placed in storage. Ideally, the oldest parts are always taken out first. With the FiFo Board, this can be controlled without great effort directly at the storage rack.

Example of a process:
Article No. 3920 is delivered. The material handler takes a coin with a storage location number from the storage container at the bottom of the FiFo row. He stores the product at the appropriate place and inserts the coin at the top of the FiFo row.

When a part is needed for production, the chip with the oldest part is at the bottom of the FiFo row. The chip and subsequently the part are taken out.

The chip then goes back to the storage container, thus indicating a vacant storage location.

Additionally, it is possible to mark the FiFo rows according to the traffic light principle. For this purpose, magnetic strips in red, yellow and green indicating the tolerance zones of storage location and material are attached to the board.

Structure and function

The FiFo Board is equipped with vertical rows which are to be fitted with coins. At the top of the Title Text Strip, the item numbers are indicated. On every single coin in turn, the aisles as well as the storage locations are printed.

The red zone indicates when a process must be checked.

The upper Column Text Strip provides information on the production sector, the material group or the customer. Vertically, the FiFo row is labelled with the article number and optionally with the article short text. This creates a better overview and it can clearly be seen which article it is. In this way, a precise attribution is possible.

The FiFo Board is available in two heights with a capacity of 20 coins or 40 coins. It is composed of modules. One module is 280 mm wide and has 5 rows. With additional modules and extension elements, the system can be extended to any width.

In practice, the FiFo Board is used in small-parts as well as pallet warehouses. It can for example be installed at the front edge of the storage racks. In this way, the material handler has direct access and keeps track of the goods stored.

The FiFo Board provides for transparency in the warehouse. There are no special expert knowledge or further auxiliary means needed.

FiFo Board
Basic board with 5 rows, incl. heading and column text lettering as well as a utensil tray for chips and circumferential frame

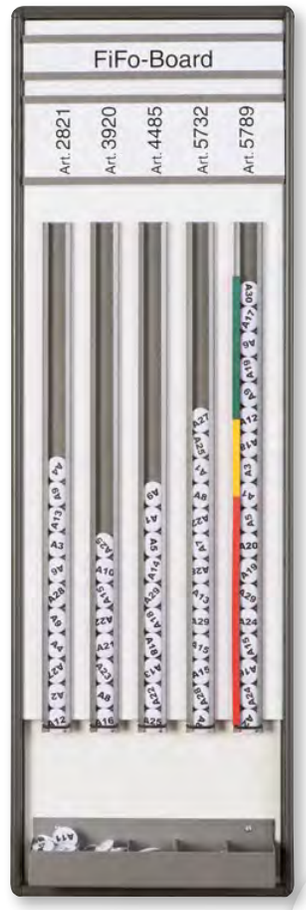
FiFo Board C2520
for 20 chips per row,
width = 274 mm, H = 862 mm
Item No. 71 35 000

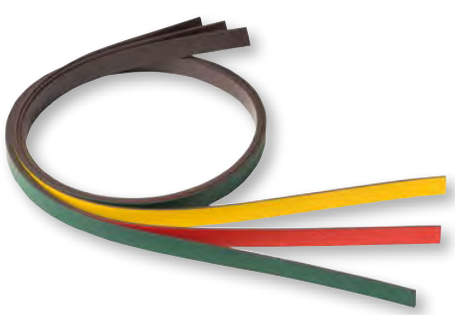
FiFo Board C2540
for 40 chips per row,
width = 274 mm, H = 1354 mm
Item No. 71 35 001

FiFo Board Expansion
Expansion to the right with 5 rows, incl. Heading and Column Text Lettering as well as a utensil tray and upper and lower frame profile

FiFo Board C2520 ER
for 20 chips per row,
width = 250 mm, H = 862 mm
Item No. 71 37 000

FiFo Board C2540 ER
for 40 chips per row,
width = 250 mm, H = 1354 mm
Item No. 71 37 001





Marker Tape
dimensions: 600 x 8 x 1,1 mm,
magnetic strip, colour-coated
on one side (matt)
QU = 5 pieces per colour
Item No. 71 51 003 yellow

Item No. 71 51 006 green

Chips, white
printed in black acc. to specification,
diameter = approx. 25 mm,
thickness = approx. 4 mm,
QU = 50 pieces
Item No. 71 51 000

Chips, white or coloured
printed in colour acc. to specification,
diameter = approx. 25 mm,
thicknes s =approx. 4 mm,
QU = 50 pieces per colour
Item No. 71 53 000

Detail FiFo row equipped with coins and magnetic strips in traffic light colours

FiFo Sequencer

The law of the inclined plane

The force of gravity acting in the First-in-First-out order chute helps in strictly sticking to the planned sequence. The sequencer can only be equipped with FiFo pockets from behind - and only the first order in the front can be removed. This simple principle can contribute to increase the adherence to delivery dates.

FiFo Sequencer
for up to 25 FiFo Pockets,
L = 530 mm
Item No. 71 31 000

for up to 35 FiFo Pockets,
L = 750 mm
Item No. 71 31 001

for up to 50 FiFo Pockets,
L = 1.000 mm
Item No. 71 31 002

FiFo Pocket
with plastic slider
QU = 25 pieces
Item No. 71 32 000

What is in front will be worked off

Independent of IT systems, the FiFo Box gives administrative clerks an overview of current files. In the FiFo Pockets, the documents are within reach and quickly at hand at any time.

The inclined guideway of the box causes the pockets put in at the back to slide forwards automatically. Thus, the file that is to be dealt with first is always in the front.

The side cover reliably avoids that the FiFo Pockets are removed accidentally at the back of the box. The compact format of the FiFo Box ensures that it suits to any desk and is simply taken along to meetings.

FiFo Box
for FiFo Pockets A4 portrait. Capacity for approx. 25 – 30 pockets, depending on the contents of the pockets. Cover on the right side, body with grip rail in jet black RAL 9005. Suspension device with cover in white aluminium RAL 9006.
Width = 315 mm, H = 410 mm, depth = 250 mm, material: sheet steel
Item No. 71 19 100 (without contents)

Sliding Pockets

The FiFo Pockets provide organization and overview with a capacity of 10 mm.

The FiFo Pockets have a header bar into which an individually printed scale strip can be inserted.

An additional sliding signal offers further possibilities of marking. The sliding signal can also be used as a status information.

Datoclip⁺ FiFo Pockets A4 portrait
hard foil backing, grey blue, transparent pocket with welded edge folding, capacity approx. 10 mm
W = 235, H = 297 mm, for size A4 portrait with scheduling bar in grey blue
Item No. 26 21 395

Organisation Pockets

Information Treasure Chest

The pockets of each project go into their own box. The compact format of the box and the lateral grip rail ensure that it can be taken everywhere. Current projects always remain in view. The handy, stable table trolley has an elegant appearance in jet black RAL 9005 and white aluminium RAL 9006. Gliders on its bottom side protect furniture surfaces.

Table Trolley
for size A4 landscape, capacity for approx. 25 – 30 pockets, depending on contents.
Width = 390 mm, H = 280 mm, depth = 250 mm
Material: steel sheet
Item No. 25 17 110

Datoclip⁺ Pocket
with scheduling bar in charcoal grey,
back side of pocket in different colours,
transparent front pocket fixed on reverse side, approx. 10 mm capacity
W = 313 mm, H = 220 mm
for size A4 landscape
backside of pocket available in

white	Item No. 26 32 372

light grey	Item No. 26 32 377

Datoclip⁺ Twin Pocket
with scheduling bar in charcoal grey,
centre part in different colours,
transparent pockets on front and back,
each side approx. 5 mm capacity
W = 315 mm, H = 225 mm,
for size A4 landscape
Pocket centre part available in

white	Item No. 26 32 472
yellow	Item No. 26 32 473
red	Item No. 26 32 474
blue	Item No. 26 32 478
green	Item No. 26 32 476
light grey	Item No. 26 32 477

You will find more Datoclip⁺ Pockets in our catalogue “Pocket Systems“.

Scale Strips
for size A4 landscape, white for labelling with DatoPrint
10 strips per sheet
10 sheets = 1 pack
Item No. 26 87 102

DatoPrint
Software to create customized scales for Datoclip+ scheduling bars as well as for labelling of the index labels, German manual.
Item No. 26 81 101

The 4 mm wide signals made of plastic shown below provide for even more significance and detailing. Like the sliding signal, they are inserted into the transparent guideway of the header bar from below.

Set a sign

The FiFo Signal Tabs are kept in six different colours. They are simply clipped on the transparent guideway of the header bar. The colour of the signal tabs then indicates for example the estimated time required for the processing of a file.

Example:

green	=	time required 2 hours
blue	=	time required 4 hours
yellow	=	time required 6 hours
red	=	time required several days

Signals
made of plastic, 4 mm wide
Colours: yellow (04), red (07), blue (12), green (14), black (20)
100 pieces = 1 pack
Item No. 26 64 4*

assorted in 5 colours
Item No. 26 64 455

FiFo Signal Tabs
Colours: white (02), yellow (04), red (07), blue (12), green (14), black (20)
100 pieces = 1 pack
Item No. 26 63 2*

in 5 assorted colours (white, yellow, red, blue, green)
Item No. 26 63 255

Index Labels
W = 48 mm, H = 19.5 mm,
for labelling with DatoPrint
Size A4 = 56 labels = 1 sheet
Colours:

white	Item No. 26 85 102
yellow	Item No. 26 85 104
pink	Item No. 26 85 108
blue	Item No. 26 85 112
green	Item No. 26 85 114

Sliding Signal
for Datoclip+ scheduling bar, transparent plastic, 24 mm wide, light red 100 pieces = 1 pack
Item No. 26 64 207

Staggered tightly

To present considerable amounts of documents clearly and space-savingly – this is the speciality of the planning board system Stagger Display IV. The overlapping compartments receive document stacks with a thickness of up to 29 mm.

For document size **A4 portrait**
visible edge 80 mm,
capacity approx. 21 mm
number of stagger plates 12 pieces

Width	Height	Comp.	Item No.
265 mm	1200 mm	11	81 31 596
530 mm	1200 mm	11	81 31 595
795 mm	1200 mm	11	81 31 597

for document size **A5 portrait**
visible edge 80 mm, capacity 29 mm
number of stagger plates 13 pieces

Width	Height	Comp.	Item No.
530 mm	1200 mm	12	81 31 555

Card Holder
for the headings, magnetic flat C-profile, including white cardboard strip and transparent cover
L = 220 mm, H = 40 mm
Item No. 84 50 240

Label Holder
for stagger plate, magnetic flat C-profile, including transparent cover
L = 50 mm, H = 20 mm
1 PK = 40 pieces
Item No. 84 92 300

* When ordering please add colour number!

Index Label
for stagger plate label holder, L = 50 mm, H = 20 mm, perforated every 10 mm, 50 labels = 1 sheet
Colours: white (02), yellow (04), red (07), blue (12), green (14)
Item No. 84 81 7*

Stagger Plates
Item No. = 1 PK = 4 pieces
to expand for the following document sizes

size A4 portrait, visible edge **60 mm**, capacity approx. 15 mm,

Width	Comp.	Plates	Item No.
530 mm	15	1 PK	81 33 592

size A4 portrait, visible edge **40 mm**, capacity approx. 10 mm

Width	Comp.	Plates	Item No.
530 mm	23	3 PK	81 33 592

size A5 portrait, visible edge **60 mm**, capacity approx. 21 mm

Width	Comp.	Plates	Item No.
530 mm	16	1 PK	81 33 552

size A5 portrait, visible edge **40 mm**, capacity approx. 14 mm

Width	Comp.	Plates	Item No.
530 mm	24	3 PK	81 33 552

size A5 portrait, visible edge **20 mm**, capacity approx. 6 mm

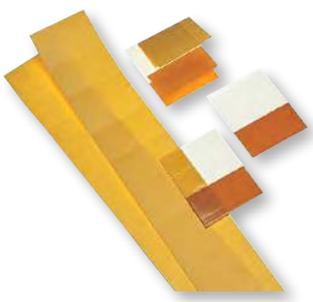
Width	Comp.	Plates	Item No.
530 mm	48	9 PK	81 33 552

Other widths on request!

Application example: order organisation for
8 employees with daily scheduling for a period of 2 weeks.

Totally Transparent

Question: How do I have quick access to my forms, how do I organise mail distribution at work and how can I clearly identify the contents?
Answer: By using a Wall Pocket!
The Presentation and Filing System consists of transparent overlapping compartments with a visible edge of approx. 60 mm per compartment. It can easily be mounted to the wall and just as easily expanded.



Transparent Self-Adhesive Tab
for wall pocket, W = 50 mm, H = 36 mm
25 pieces = 1 PK
Item No. 82 75 401

Labels
for transparent self-adhesive tab
colours: white (02), yellow (04), pink (08), blue (12), green (14)
5 labels = 1 strip, 2 strips = 1 PK
Item No. 82 85 455

* when ordering please add colour number!

Wall Pocket
with 4 pockets for document size
A5 landscape
visible edge = 60 mm
Colour: umbra grey
W = 255 mm, H = 350 mm, D = 50 mm
Item No. 81 41 107

Wall Pocket
with two pockets for document size
A4 landscape
visible edge = 60 mm
Colour: umbra grey
W = 360 mm, H = 295 mm, D = 80 mm
Item No. 81 41 207
